Located on the Wakulla River in St. Marks, Florida

Since its establishment in 1960

The St. Marks Yacht Club has been the nautical and social headquarters for many area boaters. Featuring a clubhouse designed specifically for large group events and an extensive marina, the club provides the infrastructure and facilities for every form of water recreation as well as abundant climate-controlled, fully-equipped space for monthly socials and special events.

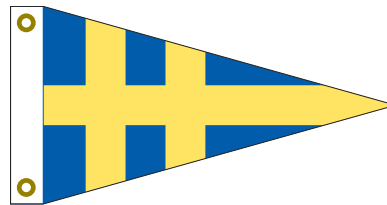

Every party has its own special flavor.

Even the quiet moments are special at the St. Marks Yacht Club.

The club's pool, deck areas, large screened porch and three-story overlook provide ideal venues for viewing the lavish river sunsets that adorn each boating season.

The club offers a casual environment for fun and entertainment in one of the most relaxing environments in the Southeast.

Members have the right to fly the Cruz de la San Marcos, the official St. Marks Yacht Club Burgee, which is registered with Lloyds of London.

Membership Requirements

You do not have to own a boat to be a member of the St. Marks Yacht Club, but you do have to attend at least two monthly socials as a guest to be considered for membership. Applicants may also be sponsored by a current member, officer or club director to gain membership. (An initiation fee is due with application.) Information on initiation and monthly fees are available from the club Purser (Treasurer) or other club directors. Applications are distributed to all current club members for consideration and review. (Corporate memberships are also available.)

At the club or on the water, it's all about having fun.
